

November 12, 2024

Dear Valued Customer,

We are excited to announce that Assembly Fasteners, Inc. (AFI) has been acquired by Endries International, Inc., Headquartered in Brillion, WI. Endries is a leading distributor of industrial fasteners and Class-C components offering advanced supply chain solutions for over 50 years. With 26 distribution centers across North America and Europe, the Endries family of brands delivers an extensive product breadth of over 800,000 SKUs, including standard and engineered fasteners. Both Endries and AFI share a commitment to providing innovative, reliable solutions with a focus on quality and service for our customer base.

In the near term, AFI's operations will continue largely unchanged, with no anticipated changes in staff and all legacy customers continuing to be serviced from our existing location. Our ISO 9001:2015 certification is unaffected and all quality systems remain in place. Existing supplier and customer agreements will be honored and customers can rest assured that there will be no disruption to the services or products we supply and that they will continue to receive the same high-level of service they are accustomed to.

In the coming weeks, our accounting department will be reaching out to Accounts Payable to review payment options and federal tax identification number.

We value the relationship and trust that the team has developed over the years with you. Taking care of our customers and delivering exceptional customer service with the alignment of our valued supply base is core to who we are. Our attention to detail in every aspect of what we do will not change.

We are excited for our future and look forward to continuing to service you. Should you have any concerns or questions, please feel free to contact me, hugh.watson@afi.cc.

Sincerely,

Hugh Watson
General Manager
Assembly Fasteners, An Endries International Inc. Company
